PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Petropavlovsk-Kamchatskiy Army Barracks 2 is 6 kilometers (km) east-northeast of Petropavlovsk-Kamchatskiy and 8 km southeast of the training area which it supports (Figure 1). Petropavlovsk Army Barracks (BE No [REDACTED]) is the same installation as Army Barracks 2.

Petropavlovsk-Kamchatskiy Army Barracks 2 covers approximately 430 acres and contains 68 buildings (not all shown) including 2 probable administration buildings/barracks, 30 housing units, 9 storage buildings, and 27 support buildings. It also contains 1 athletic/parade field, 2 probable bivouac areas, and an AAA site (Figures 2 and 3).

The installation was covered by [REDACTED] KEYHOLE missions of interpretable quality between [REDACTED]. Comparative analysis indicates that the installation was probably constructed prior to [REDACTED] however, poor quality and snow cover preclude identifying individual buildings. Probable bivouac area D1 was first observed on the [REDACTED] coverage. One administration building/barracks was constructed between [REDACTED]. The AAA site was first observed on the [REDACTED] coverage. Probable bivouac area D3 was first observed on the [REDACTED] coverage. The overall level of track activity has remained light.

DESCRIPTION OF INSTALLATION

Road Service

Secondary probable all-weather roads connect the installation with Petropavlovsk. Secondary possibly all-weather roads and tank-trails connect the installation with the training area.

Administration and Troop Housing Areas

- Area D1 contains a probable bivouac area.
- Area D2 contains 2 probable administration buildings/barracks and 4 support buildings.
- Area D3 contains a probable bivouac area.
- Area D4 contains 30 housing units.

General Storage Areas

Area E1, probably secured by a fence, con-

tains 4 storage and 3 support buildings.

Area E2, probably secured by a fence, contains 1 storage building.

Area E3, secured by a fence, contains 4 storage buildings and 1 support building.

Other Buildings

Nineteen support buildings are dispersed throughout the installation.

Athletic Field

Area K is an athletic/parade field.

Artillery Emplacements (Batteries)

Area Q contains an AAA site, probably inactive, with 6 firing positions.
